LUCIANO DE JESUS MENEZES JÚNIOR

Junior Backend Developer (.NET/C#) | Banking Fraud Prevention Systems | Pursuing AWS Developer Associate Certification

Sorocaba, SP, Brazil | +55 (11) 99942-2998 | luciano.menezes.jr11@gmail.com | linkedin.com/in/luciano-júnior-89b6b7211 | github.com/lucianomenezesjr | lucianojr-portifolio.vercel.app

PROFESSIONAL SUMMARY

Junior Software Developer with hands-on backend experience (.NET/C#, Python/FastAPI) building fraud prevention and detection features for a high-volume banking platform at 2RPnet. AWS Academy Graduate (Cloud Developing), with a personal project deployed to production on AWS and actively studying for the AWS Certified Developer Associate exam. Dual technical background in Systems Development and Industrial Automation, with a track record of projects combining hardware, IoT, and software. Looking to build a career as a backend developer in the financial services sector.

PROFESSIONAL EXPERIENCE

Junior Software Developer | 2RPnet – Sorocaba, SP *Dec 2025 – Present*

- Developed and optimized fraud prevention and detection features for a high-volume banking platform, including advanced SQL queries, indexing strategies, and performance tuning;
- Designed and implemented schedulers and automated processes to ensure operational stability and scalability;
- Built configurable workflows and business rule engines enabling flexible, scalable platform behavior;
- Built an internal API Marketplace focused on modular architecture, security, and scalability;
- Created business and performance dashboards using BigQuery and Looker (GCP), turning data into actionable insights;
- Actively participated in code reviews, technical documentation, and Agile ceremonies (Scrum).

Software Development Intern | 2RPnet – Sorocaba, SP *Mar 2025 – Dec 2025*

- Supported backend development with C# (ASP.NET) and Python (FastAPI) on a financial security platform, progressing to a full-time Junior Developer role after 9 months;
- Built and maintained REST APIs, relational database integrations, and performance improvement scripts;
- Contributed to automated processes and workflows in an Agile (Scrum) environment.

PROJECTS

LabControl 4.0 – Industrial Monitoring System *(ASP.NET, PostgreSQL, IoT, Next.js, AWS) — 2025*

- Industrial monitoring platform (Industry 4.0) deployed on AWS infrastructure, with a layered architecture (Edge/IoT, Supervisory, Management, Strategic); real-time machine monitoring, energy consumption tracking, and occupancy visualization; JWT authentication with role-based access control.

Automated Package Delivery Locker (Technical Capstone – Industrial Automation) *(Raspberry Pi, IoT, QR Code) — 2024*

- Hardware + software project: automated locker with delivery-code identification, QR code generation, delivery validation, and owner notification — designed, built (laser-cut enclosure), and programmed end to end.

Season Wrapped – Bundesliga x AWS Hackathon *(React Native, Java, PostgreSQL/AWS RDS) — 2025*

- Mobile app displaying personalized season statistics, with a Java backend and a PostgreSQL database hosted on Amazon RDS, deployed on AWS infrastructure.

BCTI – Intelligent Technical Knowledge Base *(.NET, Next.js, PostgreSQL, AI) — 2025*

- Web system with an AI-powered chat that answers questions based on registered articles and cites its sources — delivered as a functional MVP in 3 weeks.

EDUCATION

- Associate Degree in Systems Analysis and Development (in progress, 4th semester) — Universidade SENAI | Jan 2025 – Dec 2026
- Technical Diploma in Systems Development (SENAI SP) and Technical Diploma in Industrial Automation (IFSP – Salto Campus) — dual technical background completed during high school | 2023–2024

TECHNICAL SKILLS

Languages: C#, Python, Java, JavaScript, TypeScript
Backend: ASP.NET Core, FastAPI
Frontend: Next.js, React, React Native
Databases: PostgreSQL
Cloud: AWS (AWS Academy Graduate – Cloud Developing; RDS; pursuing Developer Associate certification) · GCP (professional use: BigQuery, Looker; personal skill badges: networking, load balancing, ML, dev environment setup)
Tools: Docker, Git/GitHub, Scrum

CERTIFICATIONS & LANGUAGES

- AWS Academy Graduate – Cloud Developing (2026) · Google Cloud Computing Foundations Certificate (2025) · Oracle Java Foundations Certified Junior Associate (2024) · Atlassian Agile Project Management · IBM Data Science Foundations · Google Cloud Skill Badges: Networking, Load Balancing, BigQuery ML, Dev Environment Setup (2025)
- Languages: Portuguese (Native) · English (Advanced)
